## Transition

### Transition

Transition check-in will take place on race day only. You must have your decals on to enter transition before and after racing.

The transition area will be situated on the grass to the east side of the Willie Clarke building. Three different transition areas will be used for the event on rotation, marked yellow, red, and green. You will use two transition areas, as indicated on the next page. There will be no marking permitted in transition, this includes the use of talc on the floor.

Each transition area will open for set up 15 minutes prior to the start of each race, and close 10 minutes before the start of each race. As there is only a narrow window for set-up participants should come prepared to drop their kit at their space as efficiently as possible. Please do not enter transition until directed by marshals. Transition spaces will be marked by race number. Volunteers will be on hand to assist and answer any questions.

Only kit being used/worn should be left in the transition area. Bags and other belongings should be left in your car where possible. As there are no changing rooms or bag drop, you may leave a small number of belongings in your transition space. After setting up your transition area you should make your way straight to the beach, ready to start.

There will be 10 minute windows provided to clear your belongings from transition. Do not cross any timing mats or enter Transition Area through any other location.

Once you have found your transition space, tidy your area and leave the transition as soon as you can. We would appreciate the transition area being cleared as quickly as possible once permission has been given by the Race Organiser.

## Rules and Regulations

The British Triathlon Super Series operates within and utilises the [World Triathlon Competition Rules](#). For specific rules and regulations, including uniform, equipment, and wheel regulations, please see the relevant Technical Guidance document under the [Resources](#) tab of the Super Series Website.

### Marking Transition

As per the British Triathlon Competition Rule 7.1q: Marking positions in the Transition Area is forbidden. Marks and objects (such as balloons, talcum powder, chalk, towels) used for marking purposes are not permitted and will be removed and the competitors will not be notified. Wetsuits or other items of clothing hung over racking is classed as marking.

### Uniform within the Field of Play

As per the World Triathlon Competition Rule 2.8ix: The uniform must be worn over both shoulders while the athlete is on the Field of Play. Nudity of any kind will not be permitted. The Super Series features minors racing and spectating and so this ruling must be respected by all.

The Field of Play is defined as “The course on which the competition will take place, the start and pre start areas, the finish and post finish areas, the aid stations, the wheel stops, the penalty boxes, the ceremony area and the briefing area. Usually, the field of play is separated from the public by a clear boundary”.

### Approved Running Shoe Guidance

Any running shoe used at a British Triathlon Super Series race must be listed on the World Athletics Approved Shoe List. Shoes listed in blue on the Approved list are ‘Development’ shoes and will not be accepted as World Athletics only has only approved their use in specific circumstances. If an athlete can provide proof from World Triathlon or World Athletics that they have been approved to wear the shoe during a specific period, they will be allowed to wear it. If a shoe was manufactured prior to 2016 and the manufacturer is listed in the Approved Shoe List, the shoe will be automatically approved. Any shoe manufactured after 2016, that isn’t on the Approved Shoe List will NOT be approved. Bespoke shoes are not allowed under any circumstances. Please note, this is different to customised.

Any shoe that is suspected to be in breach of the above, or is protested, will be sent to British Triathlon for further analysis to assure they conform with the World Athletics guidelines. <https://www.worldathletics.org/about-iaaf/documents/technical-information>

(Manuals and Guidelines > World Athletics Approved Shoe List)

Please note that not all shoes are present on the list. In almost all cases that the shoes have been purchased from a manufacturer or sports store and are readily available to all, the shoe is legal.
