Start Procedure: Once you have chosen a starting position, please ensure you are in a straight line between the two buoys. Once the line is straight, a technical official will call: **“Athletes, you are now in the hands of the starter,”** which will be followed by a loud air horn.

Once the race has begun, athletes will swim straight to the second yellow cylindrical buoy, keeping it on their right shoulder. Athletes will then turn right and swim to the top yellow cylindrical buoy before continuing straight towards the red triangular buoy, passing the red circular buoy on their route. After rounding the final buoy, athletes will continue directly to the swim exit as indicated on the course map.

Wetsuit Rules: World Triathlon rules are strictly adhered to for wetsuit usage.

Water Safety: A dedicated water safety team will be on the water to support competitors. Should you require assistance or wish to withdraw during the swim, roll onto your back and raise your arm in the air—a safety kayak will come directly to assist you.

Rules and Regulations

The British Triathlon Super Series operates within and utilises the [World Triathlon Competition Rules](#). For specific rules and regulations, including uniform, equipment, and wheel regulations, please see the relevant Technical Guidance document under the [Resources](#) tab of the Super Series Website.

Marking Transition

As per the British Triathlon Competition Rule 7.1q: Marking positions in the Transition Area is forbidden. Marks and objects (such as balloons, talcum powder, chalk, towels) used for marking purposes are not permitted and will be removed and the competitors will not be notified. Wetsuits or other items of clothing hung over racking is classed as marking.

Wheel Regulations

Any wheels used at a British Triathlon Super Series race must be defined as standard (described in the relevant Technical Guidance documents for each category found on the [Resources](#) page) or listed on the [UCI Non-Standard Approved Wheel List](#). We ask that you please either keep the approval decal, memorise the page number that your wheels appear on within the wheel list, or have a screenshot of your wheels on the wheel list. This allows Officials managing wheel checks to find your wheels more easily on the list and speed up wheel checks.

Handlebars:

The brakes shall consist of two supports with levers. It must be possible to operate the brakes by pulling on the levers with the hands on the lever supports in accordance with the maximum inclination of 10°. Athletes who do not comply with this rule will not be permitted to race under any circumstances. This will be measured using the UCI approved tool on the day.

Uniform within the Field of Play

As per the World Triathlon Competition Rule 2.8ix: The uniform must be worn over both shoulders while the athlete is on the Field of Play. Nudity of any kind will not be permitted. The Super Series features minors racing and spectating and so this ruling must be respected by all. The Field of Play is defined as “The course on which the competition will take place, the start and pre start areas, the finish and post finish areas, the aid stations, the wheel stops, the penalty boxes, the ceremony area and the briefing area. Usually, the field of play is separated from the public by a clear boundary”.

Approved Running Shoe Guidance

Any running shoe used at a British Triathlon Super Series race must be listed on the World Athletics Approved Shoe List. Shoes listed in blue on the Approved list are ‘Development’ shoes and will not be accepted as World Athletics only has only approved their use in specific circumstances. If an athlete can provide proof from World Triathlon or

World Athletics that they have been approved to wear the shoe during a specific period, they will be allowed to wear it.

If a shoe was manufactured prior to 2016 and the manufacturer is listed in the Approved Shoe List, the shoe will be automatically approved. Any shoe manufactured after 2016, that isn’t on the Approved Shoe List will NOT be approved. Bespoke shoes are not allowed under any circumstances. Please note, this is different to customised.

Any shoe that is suspected to be in breach of the above, or is protested, will be sent to British Triathlon for further analysis to assure they conform with the World Athletics guidelines. <https://www.worldathletics.org/about-iaaf/documents/technical-information> (Manuals and Guidelines > World Athletics Approved Shoe List) Please note that not all shoes are present on the list. In almost all cases that the shoes have been purchased from a manufacturer or sports store and are readily available to all, the shoe is legal.
