You will be able to view the waitlist and your likelihood to be offered a start on the relevant event page.

When will rankings be made public after events?

Typically, you can expect to see the updated Super Series rankings by the weekend following a race day. However, this will not always be the case, as some races such as the Aquathlons cannot be ranked until both events have taken place. The rankings for such events will be published by the weekend following the later event in the pairing.
